EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Henry Young on 3/23/2004.

The application has been amended as follows:

Please change the title of the invention to:

ROBER COMPOSITE CONTAINING IN SITU FORMED FILLER
REINFORCMENT, ARTICLE AND TIRE COMPRISING THEREOF.

In claim 1 B2, line 1, delete term "as" and insert back term "is selected from"

In claim 1 B2, line 2, delete term "and" and insert term "or".

Examiner's Statement of Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The applicants have amended claim 1 to require that the particulate filler is precipitated silica that is pre-treated with coupling agent selected from a group of claim 1. The coupling agents from the list in claim 1 are acrylate and chlorobased alkoxysilanes. Silane treated silica is then treated with initiator that is selected from butyl-lithium or tetramethyl ethylenediamine.

The particulate filler is then incorporated in monomers listed in claim 1.

The prior art of record (WHITEHOUSE and DEVENPORT) disclosed similar process, where the particulate filler is carbon black or silica. The silane treating agent disclosed in the prior art of WHITEHOUSE and DEVENPORT is different from the agent required by the present claims. Further. In addition, the radical initiator is peroxide.

Since the prior art of record does not teach the present invention, pending claims are passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
